VOLATILITY

When four industrious teen investigators break into an abandoned shopping mall intent on investigating why the authorities closed it down, they assumed they'd be exposing a mundane case of corporate mismanagement. Little did they know that they will instead find themselves trapped in the decaying structure, engaged in a desperate struggle with Juggy, an evil animatronic toy with an errant AI, and who is hell-bent on hunting them down.

**Twisted Toy Tales™** is a unique, character-driven game that combines two different RAW Super innovative mechanics (**SuperStretch™** and **Dynamic Ways™**) with the potential to create 100,000 paying ways and wicked big wins.

## GAME FEATURES

**RAW VIBET™ (Virtual Intelligent Behaviour Engine)** – Our new proprietary behaviour engine that enables the Juggy character to randomly create and verbalise actions in the game to create a more diverse and random entertainment character experience.

**SuperStretch™** – Any wins involving the Teen Hero symbols cause a vertical expansion to grow the number of ways. Reels grow by an extra row for each winning Teen Hero symbol they contain, up to a maximum of 10 rows in height.

**Dynamic Ways™** – The Juggy symbol is evil and acts as a blocker, expanding downwards to restrict the number of ways.

**Teen Hero Re-spins** – Any win triggers a fresh re-spin. And because true heroes never give up, there is no limit to the number of re-spins that can happen.

**Teen Hero Wild** – as well as substituting for all paying symbols, the wild blocks the Juggy symbol from landing in that reel for the remainder of the game round.

**Free Spins with Teen Hero Sticky Multiplying Wilds** – the wilds stick after landing and their multipliers grow with every win, but if Juggy lands next to a wild, he'll reach out to slash at the wild causing it to be removed from the panel.

**Bonus Rush®** - Why wait for the bonus round, rush straight into the action with Bonus Rush®.

**Clusterspin®** - Will you have a winning or losing round? Play the Clusterspin® game and win extra, up to 1,000x your bet on top of your normal gameplay.
