Pay lines: ScatterMagnets™  
Min. Bet: 0.20

**Scatters Matter™** delivers a shining new twist to slot gaming: you win by collecting coloured gems when their corresponding 'scatter magnets' also land. This engaging mechanic, combined with vibrant visuals and golden accents, has been designed to appeal to a broad audience and has a highly-progressive bonus feature. The game is played on a 7-reel/7-row panel and has the following gemtastic features:

## GAME FEATURES

**Scatter magnets** - the more gems they collect, the bigger the win.

**Cascading symbols** - all winning symbols are replaced in a cascade action.

**Multiplying symbols** - multiply gems of the same colour when they are are collected.

**Blank Exploder symbols** - red bombs explode and remove all blank symbols from the panel to boost the win potential of a cascade.

**Free spins** - played on a full panel with no blank symbols and a random booster multiplier with wins up to 10,000x.

**Sticky scatter magnets & multipliers** - In free spins, these appear and stick for the entire feature session and are key to hitting the big wins. They collect and multiply gems in free spins and do not reset, generating progressively bigger wins.

**Bonus Rush®** - Get straight to the action with Bonus Rush®.

**Clusterspin®** - Will you have a winning or losing round? Play the Clusterspin® game and win extra, up to 1,000x your bet on top of your normal gameplay.
