GAME FEATURES

Step right up and dive into the thrilling world of **Yatzy**, a dice game filled with excitement and strategy, perfect for 2-4 players.

Yatzy is all about rolling the dice to create specific combinations. Each roll is a chance to strategise: keep the dice you like, re-roll the rest. Feel the anticipation build with each click as you aim for high-scoring combinations. Whether you're going for a simple pair or the elusive **Yatzy** (all dice of the same kind), every roll is a new adventure.

Choose your adventure with either 5 or 6 dice versions. In the 5-dice game, aim for combos like a Full House or a Large Straight. In the 6-dice twist, up the ante with unique challenges like rolling a "Castle", "Tower" or "3 Pairs". Plus, keep an eye on those bonus points – they could clinch your victory!

And there's more! The Jackpot Spin is your golden ticket to big wins. Roll ones at the start of your turn to climb the Jackpot staircase. The thrill intensifies as you get closer to the Jackpot with each roll.

What if you're momentarily distracted? No worries! The game nudges you back with a shake of the dice. And if you need to step away, the game smartly plays on, using the best strategy for you.

With a sleek interface, **Yatzy** brings you an engaging experience complete with player avatars, timers, and a handy scoresheet that guides your strategy. Chat with fellow players, toggle sound and screen settings, and immerse yourself in this classic game with a modern twist.

Ready to roll the dice and test your luck and strategy? **Yatzy** is calling your name! Join the fun and see if you have what it takes to become the **Yatzy** champion.
