GAME FEATURES

SuperSlice™ - Enhancing the classic mechanic with a fixed Upper Picker and a rotating Inner Picker. On each spin, if the Pickers align, the symbol is picked. If it's a paying symbol, its meter increases.

Symbol™ Collection – Three meters track winning symbols, divided into 6 levels. Each level shows the current cash-out value. Fill a meter to trigger free spins. If the Thief lands, meters reset and winnings are lost.

The Joker – If the Joker is picked, then he fills up the lowest available segment in all 3 sections of the collection meter

The Thief – If the Thief is picked, then he brings the current game round to a close, and any money in the cash stash is forfeited.

Joker Boost - Give yourself an edge with this feature by doubling your stake to force the Joker to appear twice as often.

Bonus Rush® - Why wait for the bonus round, rush straight into the action with Bonus Rush®. It's simple, choose your bonus, set your desired bet and start the action. Once started the bonus game plays out directly. *
