Set sail for an unforgettable gaming experience! **Redbeard's SuperStash** offers a thrilling twist on the classic 'clusters pay' mechanic with its unique SuperStash feature that can rain valuable Mystery Symbols onto the reels. When symbols form clusters they are collected from the panel triggering cascades from the treasure-filled SuperStash reels. Mystery Symbols can reveal multipliers that, when collected, increment the progressive win multiplier.

GAME FEATURES

Clusters Collect - If a cluster of at least 4 of the same symbol land in adjacent positions, they form a qualifying cluster and are collected causing a cascade.

SuperStash Reels – these can contain Redbeard's Mystery Coins which drop after every cascade.

Redbeards Mystery Coins – reveal wilds, multipliers, bonus symbols and Wild Mine column exploders.

Collectors - When multipliers reach the bottom of the panel, they are collected to increment the progressive multiplier.

Wild Symbols – Redbeard substitutes for all paying symbols.

Free spins - new random symbol removers can appear and the multiplier never resets.

Double Chance** - Opt to increase your bet to double the chances of triggering the bonus feature.

SuperSonic Spins™** - play the game at a rapid speed for a preselected number of spins using a simplified visual presentation.

Bonus Rush@** - Why wait? Get straight into the bonus action with Bonus Rush@.

Clusterspin@** - Will you have a winning or losing round? Play the Clusterspin@ game and win extra, up to 1,000x your bet on top of your normal gameplay.
